EXPERIENCED PHOTOSHOP	INTERMEDIATE ADOBE ILLUSTRATOR	EXPERIENCED LINUX	INTERMEDIATE NODE.JS

With a unique blend of design sensibility and over 2 years of hands-on experience in web development, I am confident in my ability to contribute to your team's success.

Having initially started my career as a graphics designer, I quickly recognized the growing importance of creating seamless user experiences on the web. This realization fueled my transition to front end development, where I honed my skills in HTML, CSS, and JavaScript to bring design concepts to life. My background in design enables me to bridge the gap between aesthetics and functionality, resulting in user-friendly and visually appealing websites.

Throughout my journey, I have successfully collaborated with cross-functional teams to deliver projects that meet both design and technical objectives. I am skilled in responsive design principles, optimizing website performance, and ensuring compatibility across various browsers. Additionally, I have experience with front end frameworks such as React, which allows me to create dynamic and interactive web applications.

Your company's commitment to innovation and user-centered design strongly resonates with me. I am excited about the opportunity to contribute my skills and passion to your team and continue to learn and grow in a dynamic environment.

Thank you for considering my application. I would welcome the chance to discuss how my background and experiences align with your team's needs. Please find my resume attached for your review. I look forward to the possibility of contributing to the continued success of your team
